CD in MS PowerPoint format with copies of resources as titled above for use as required on PC or IAWB.

The running order of the PowerPoint file is approximately the same as the contents list above.

In addition, on the CD there are also the following pages which have not been produced as laminates but may be used as required.

A copy of the auction catalogue for the contents of Old Town Mill in 1847, gives great detail of the equipment used in a woollen mill.

Where necessary for greater detail or to read smaller text the drop down magnification menu on the PowerPoint toolbar can be used.

There is also a CD containing copies of the MS Word.doc files and Jpeg files used in creating the PowerPoint file so that if necessary individual pages or images can be easily extracted for use as required.
